RACE 1: ADELAIDE GALVANISING INDUSTRIES HANDICAP - 1200 Metres

RANGER FRANK (J. Potter) - raced keenly in the middle stages of the event, and from near the 500m became held up and was untested to the line.

WAY TO GO PAULA (B. Allen) - jumped away awkwardly and was slow to begin. Rider reported that he had intended to settle a touch closer; however, he was unable to do so due to the mare jumping away awkwardly. He added that WAY TO GO PAULA required some encouragement in the early stages to motivate it to travel. He further explained that it had travelled fairly during the event, and when asked for an effort only responded moderately. Lost its near fore plate during the event.

STRAWBERRY SWING (S. Tomlinson) - awkward and slow to begin. Had difficulty obtaining clear ground from the entrance to the straight until near the 200m when he was able to ease to the outside of LAKEHURST to obtain clear ground. ## RACE 2: SKYCITY HANDICAP - 1600 Metres

PRINCE JOFRA (A. Livesey) - laid out from near the 200m and near the 100m allowed her mount to shift out contacting WHEELS (NZ), resulting in the gelding's hindquarters being turned shifting further out onto WHEELS (NZ). Rider was reprimanded and advised in future to make a greater effort to keep her mounts straight. Rider explained that she was instructed to take up a forward position, and if there was no speed from outside her that she may lead the event. She added that the gelding had not travelled as well as it had when she had ridden it previously and when ASHIM (FR) improved around her near the 1200m she did not feel she had the horse underneath her to persist and hold him out, and for this reason she elected to restrain and allow him to cross. A post-race veterinary examination revealed no visible abnormalities.

PERFECT ROUTE (S. Tomlinson) - rider reported that the gelding never travelled comfortably, and when placed under pressure near the 600m failed to respond to his riding and commenced to weaken from the event of its own accord. A post-race veterinary examination revealed no visible abnormalities. The stable advised that they would recommend that the gelding now be retired.

WHEELS (NZ) (J. Holder) - slow to begin. Shortly after entering the straight was reluctant to improve into a tight run between PRINCE JOFRA and ZOULAH, and approaching the 100m, shortly after obtaining that run, was hampered when tightened onto ZOULAH by PRINCE JOFRA, which shifted out.

ASHIM (FR) (J. Allen) - jumped away awkwardly.

FROST YOURSELF (C. Williams) - rider reported that the mare travelled well in the early and middle stages of the event; however, when placed under pressure at the entrance to the straight it had only responded fairly. He added that on pulling up and return to scales FROST YOURSELF felt lethargic. A post-race veterinary examination revealed no visible abnormalities.

Voorham) - rider reported that the gelding raced keenly in the early and middle stages of the event; however, when asked for an effort it commenced to hang out and became awkward in its action, and for this reason she had not ridden SUPERACE (NZ) out in her normal manner. A post-race veterinary examination revealed lacerations to the near hind leg and that the gelding had bled from one nostril. Co-trainer, Mr J. Dodgson, was advised that SUPERACE (NZ) would be required to gallop 1000m in the presence of a Steward prior to accepting for a future jump-out, trial or race in accordance with AR79(8).
